Mr. H. E. Spry, I.C.S., from Bengal and Mr. W. S. Watkins, Income-tax Adviser to the Government of India, were also present.

Mr. Narayandas Girdhardas, the non-official representative from Madras, was unable to attend the meetings of the Committee.

Mr. Tanner was present at one meeting only.

The Hon'ble Finance Member opened the proceedings on the 12th July. The Committee finished its sittings on the 15th July.

1. We are of opinion that in view of the difficulties arising from a recent interpretation by a High Court of the word "Income" in section 3 of the Act, that section should be altered on the lines of the English Income-tax Act in order to provide that income-tax shall be charged not on "Income" but "in respect of property, profits or gains" as described in Schedules or specific sections of the Act.

2. In view of the variety of systems of keeping accounts in this country we are of opinion that it is impossible to prescribe in the Act any uniform system of account-keeping on which profits shall be worked out.

3. We recommend that the Indian Income-tax Act should be extended in full to British Baluchistan and not confined, as at present, to the incomes of Government servants.

4. We agree that the Indian Income-tax Act should be amended in order to provide that no account shall be taken of any income derived from a Hindu undivided family by any individual member of the family in determining the rate at which that individual member shall pay income-tax on his separate income.

5. We agree that the Act should be amended in order to make the total income determine the liability to the tax as well as the rate at which the tax should be assessed on every portion of that income, and also in order to make the deduction on account of insurance premia permissible in the case of all incomes from whatever source derived.

We are not in favour of the recommendation made by the Mohammadan members of the Madras Committee that an allowance equal to or in lieu of insurance premia should be made in the case of those communities which have religious objections against life insurance.

6. The majority of the members of the Committee are of opinion that the adjustment system should be abolished provided that the assessments made in the current year be adjusted.

As regards new businesses we are of opinion that no assessment should be made until the second year. Provision should, however, be made in the Act for businesses that close down during the course of a financial year that the Collector may assess for that year on the profits received for the portion of the year during which the business is carried on.

We consider that there should be statutory provision that the owners of a business about to be closed down should give notice to the Revenue authorities of their intention to close down the business 15 days before the business is closed down. An addition should be made to section 24 for this purpose. Rai Bahadur Ganga Ram and Dewan Tek Chand would prefer that this provision should not apply to persons who have not been previously assessed.

7. We are of opinion that all rules under the Income-tax Act should be made by the Government of India and that no rules should be made by the Local Governments.

We endorse the opinion of the English Royal Commission on Income-tax in paragraph 408 (6) of their report that, where it can be done without detriment to the public interest, the general purport of the instructions issued to the income-tax staff, so far as they affect taxpayers, should be made available to the public.

8. As regards the question of the graduation of the tax we are of opinion that the grievance caused by the "jumps" is not sufficient to justify any change in the present system. Some members consider that the Schedule should be altered by the addition of two new rates of 7½ pies for incomes between Rs. 10,500 and Rs. 12,500 and 10½ pies for incomes between Rs. 17,500 and Rs. 20,000. The majority, however, do not consider that even this change is required.

9. We are of opinion that the distinction between registered and unregistered firms should be abolished and that the Act should make provision somewhat on the lines of the English Act for assessing the profits of partnerships as such at the highest rate. If the individual partners file their statements of personal income at the same time, the assessor will merely have to ascertain whether the whole of the partnership profits are accounted for in these personal statements, in which event he would charge the partners direct at the appropriate rate. It would be left for the decision of the assessor in each case to decide whether a partnership existed or not. The super-tax on unregistered firms should be abolished. Super-tax would then be levied on each individual partner on his total income. The only difficulty anticipated is as regards the non-resident partner. We consider that provision should be made in the Act empowering the Income-tax assessor to call upon any resident partners or representatives of a firm to pay the super-tax due on the share of the profits belonging to any non-resident partner. We do not consider it feasible to insert any provision requiring any such resident partner or representative of the firm to get from the non-resident partner a statement of any other income that may accrue to him in India.

10. We are of opinion that the present rules made by most Local Governments providing that the tax shall only be refunded in the district in which it was levied should be abolished and that any rules made should provide that a refund should be granted to an assessee in the district in which he is assessed to income-tax, or, if he is not assessed, the district of his residence. We also recommend that it should be made obligatory on all persons who deduct income-tax from interest on Government securities or the securities of companies to issue to all security holders a certificate that income-tax has been deducted at the maximum rate, and that companies distributing dividends should be required by law to give a certificate that income-tax has been or will be paid at the maximum rate. In both cases the amount of tax should be specified in the certificate. These certificates should be accepted as a final authority for a refund in the district in which the assessee is assessed, or, if he is not assessed, in which the assessee resides.

We recommended that applications for refunds should be received by post and that the refunds for those assessees who do not present themselves before the Collector should be remitted by money order. In such cases the cost of the money order should be borne by Government and should not be deducted from the amount refunded.

We are unable to support the recommendation of the Bombay Committee that in the case of Government securities the tax should be recovered at the lowest rate, the balance due being recovered direct from the assessee by the Collector.

RECOMMENDATIONS REGARDING SPECIFIC SECTIONS.

Section 2 (2).

11. Mr. Roy put forward the proposal that the members of a Hindu undivided family should be permitted to register their shares with the Collector and that where there is registration of the whole 16 annas share, assessment should be made individually on each member of the family only in respect of his share. He wishes this proposal to have effect although the income is not as a matter of fact actually distributed according to the registered shares. Mr. Maomohandas Ramji supports this proposal. Rai Bahadur Ganga Ram Dewan Tek Chand and Mr. Jatar consider that the change proposed is neither possible nor desirable. The other members of the Committee do not wish to express any view upon this point, except to point out that if this proposal is carried out, the proposal previously made (paragraph 4 above) that the income derived by any individual member of an undivided Hindu family should not be taken into account in determining the rate of tax to which he is liable should have to be dropped.

Section 2 (4).

12. We agree to the proposal that the definition of Chief Revenue authority should be amended so as to permit a person other than the Financial Commissioner or the Board of Revenue being appointed as head of the Income-tax department in provinces where these authorities exist. We also agree to the proposal of the Madras Committee that the designations of the Chief Revenue

Authority, Collector and Commissioner should be abolished as they are likely to cause confusion and that the Income-tax authorities should be given a distinct nomenclature distinguishing between the assessor, the appellate authority and the head of the department. We also agree with the view of the Madras Committee that the Income-tax Commissioner should not be appointed as a matter of routine but should be an officer experienced in income-tax work in India who is himself prepared to keep the post for a sufficient time to preserve consistency and continuity.

The Bengal members are only prepared to agree to the proposal regarding the amendment of the definition of "Chief Revenue Authority" on condition that their proposal regarding the association of non-official agency with the Commissioner of Income-tax in the disposal of revision cases and cases referred to High Court is accepted (see paragraphs 58 and 64 below).

SECTION 2 (6)

18. We agree with the proposal that the definition of "assessor" should make it clear that in cases where a business has various branches whether situated within the same province or more provinces than one, the assessor of the district in which the branch is situated should be given the powers conferred by this definition on the Collector of the headquarters district

SECTION 2 (11).

14. We agree that power should be taken to fix by rule the "previous year" for any commercial community when the year adopted by the community does not conform with the present definition in the Act. There are two cases to be provided for (1) the case wherein commercial year may be slightly over or slightly under twelve months, and (2) the case where a commercial year ends shortly after the 31st March. In the latter case it is suggested that "previous year" should include a year terminating within one month after the end of the financial year.

SECTION 3 (1).

15. We are not in favour of the proposal of the Bombay Committee that the Act should be extended so as to make liable to Indian income-tax incomes earned outside British India when not received in British India.

When an assessee domiciled in British India has an income accruing outside British India and brings that income into British India at intervals, the Act should provide that these accumulated profits shall be liable to assessment whenever brought into British India, irrespective of whether they are brought within the year in which they are earned or not.

SECTION 3 (3) (*ix*), (*x*).

16. We agree with the proposal that the concessions given to the particular provident funds mentioned in these clauses should be extended to the provident or superannuation funds of private firms and companies. It would, however, be necessary to lay down some general principles (in particular providing that no such privilege should be conferred upon any funds which have not irrevocably left the control of the proprietors of the business), and these principles might suitably be inserted in the rules to be framed under the Act, pending legislation for such funds, which we understand is at present under consideration.

SECTION 3 (3) (*xii*).

17. We consider that the Legislative authorities should be asked whether this clause read with the definition of the word "business" in section 3 (3) will cover the case of a person purchasing one house with the intention of selling it for profit, and if the case is not covered, we suggest that the Act should be amended in order to provide for such a case.

SECTION 6.

18. We agree that efforts should be made to simplify the forms of returns for income-tax purposes so as to make them as intelligible as possible to the assessee, and that the forms should be prescribed by rules made by the Government of India.

SECTION 6.

19. We agree that this section should be amended in order to require all employers to deduct income-tax from all payments to their employees under "Salaries".

SECTION 9.

20. We agree that this section should be amended so as to provide for the case of premises let for business purposes and also for the assessment under this section of such premises as wharves, millyards, etc.

In view of the heavy loss that would be involved, we are not prepared to recommend that municipal taxation should be allowed as a deduction under this section. Mr. Roy and Mr. M. M. Ranji would allow deductions in respect of municipal taxation on house property and would make up the loss by increasing the rates of income tax generally.

We do not consider that any allowance should be made for brokerage for arranging loans on mortgages and legal charges relating thereto as they are in the nature of capital charges.

We are unable to accept the recommendation of the Bombay Committee that, when the annual value exceeds the actual receipts from rent, tax should be levied from the tenant on the difference, or that the landlord should be empowered to recover tax from the tenant, as this seems to us to be a matter for mutual arrangement between the landlord and the tenant.

Section 9 (i), (ii).

21. We consider that the allowance of one-sixth for repairs is a generous one and that there is no case for increasing it. Mr. Roy dissents and would abolish the one-sixth allowance and allow actual expenditure in every case.

Section 9 (vi).

22. We do not consider that any alteration is required in sub-clause (vi) regarding collection charges.

Section 9 (vii).

23. We do not consider that any alteration is required in sub-clause (vii) regarding the allowance for vacancies. If there is any want of uniformity or regularity in connexion with any such allowances the matter could be cured by executive instructions.

Section 9.

24. We do not consider it necessary or possible to specify in this section all allowances which are admissible or inadmissible. Suggestions have been received from Madras for the insertion in this section of a large number of allowances most of which are generally allowed under sub section (2) (xv); lack of uniformity in granting deductions permissible under that sub-section can be provided for by the issue of executive instructions; in particular we consider that such instructions should be issued providing for allowances for bad debts, when consistent with the system of accounts adopted by the assessee.

Section 9 (2) (iii).

25. We agree that instructions should be issued that under section 9 (2) (iii) interest paid to a partner on the legal loan lent by him to the firm should be allowed as a business expense to the firm. We cannot accept the proposal made by the majority of the Madras Committee that the share of profits given to Muhammadan depositors in lieu of interest on borrowed capital should be allowed as a business expense.

26. We cannot accept the proposal made by the Bombay Committee that salaries paid to a partner should be allowed as a business expense.

Section 9 (2) (iv).

27. We agree that the allowances provided for in clause 9 (2) (iv) should be extended so as to cover insurance of stocks, stores and office furniture.

We are unable to support the recommendation of the Bengal Committee that allowance should be made for internal insurance by a firm itself. The non-official members from Bengal and the United Provinces dissent.

We do not consider it advisable to insert any provision in the Act for allowing as a business deduction insurance against a loss of profit. We think there should be a standing instruction that where the owner of a business asks for any such allowance it should be given on the assessee agreeing to pay income-tax on any amount recovered from the insurance company. The same principle should apply to insurance against loss of rent under section 8.

Section 9 (2) (v).

28. We recommend that the section should be amended so as to provide that depreciation at the rates sanctioned by the Government of India should be allowed every year when there are sufficient profits and only the excess of the depreciation allowance over profits should be carried forward from year to year until absorbed, that this practice should be followed whether the depreciation allowance is adjusted in the accounts or not and irrespective of the amount shown in the accounts. We agree that sub-section 9 (2) (v) should be further amended in order that the rates of depreciation approved by the Government of India should be fixed rates and not maxima, and should apply to the whole of India.

Section 9 (2) (vii).

29. We are unable to accept the recommendation made by the majority of the Madras Committee that the provisions of this section should be extended so as to provide that municipal taxes on a business whether in respect of premises or otherwise should be allowed as a business expense even if such a tax varies with the income of the business and is in the nature of a local income-tax.

Section 9 (2) (ix).

30. We are of opinion that *bona fide* expenditure for the welfare of the employees of a business should be allowed as a business expense under this sub-section on conditions to be prescribed by the Government of India or to be agreed upon between the Government of India and the assessee. We recognise that it is impossible to make any specific provision in the Act for this purpose.

Section 14 (2)

31. We consider that the words "by collection in that year" should be omitted, as they are inconsistent with section 30 (5).

We agree that it is necessary to omit from this section the words "and the taxable income of such company or firm is Rs. 2,000 or upwards" and to provide for the maximum rate being levied on the whole of the taxable income of the company or firm.

SECTION 17.

32. We consider that when a particular period is prescribed in the notice within which a return must be made, that period should date from the date of service of the notice on the assessee and not from the date on which the notice was issued. We consider it unnecessary to extend the period within which a return must be furnished to 60 days, as the Collector has complete discretion to extend the period.

SECTION 17 (2).

33. We are unable to accept the recommendation made by the Bombay Committee that the old summary procedure should be reintroduced for incomes between Rs. 2,000 and Rs. 5,000. Mr. Manmohandas Ramji dissents from this conclusion.

SECTION 18

34. We do not consider that any change should be made in this section on the lines suggested by the Madras Committee, (viz., that the Collector must specify the particular accounts and documents to be produced and not to call for all documents and accounts as we consider that the present provisions of this section are sufficiently clear).

We agree with the Madras Committee that the section should be amended in order that it should not be obligatory on the Collector in every case to call for accounts where he considers the return in any way to be incorrect. We consider that this object could be attained by substituting the words "or produce" for the words "and produce" in sub-section (2). The object of the amendment is to provide that the Collector may dispose of a case by a personal interview with the assessee without being required by the Act to call for documents if he does not think this necessary.

We agree that the sections of the Act which provide that an assessee must attend either in person or by a pleader should be amended so as to allow the assessee to be represented by any person authorised by him.

We agree with the Bengal recommendation that a Collector should have power to call for the production of accounts whether a return has or has not been filed. We recommend that executive instructions should be issued to prevent undue detention of accounts called for by an assessor.

We do not agree with the Bombay proposal that income-tax collectors should be debarred from taking notes from accounts of the names of persons who borrowed money from or lent money to the firm that is being assessed. We agree that any such notes must be kept strictly confidential. Mr. Manmohandas Ramji and Mr. Roy dissent from this.

SECTION 18 (5).

35. We recommend that the Act should be amended in order to provide for cases where the income from salary is by itself below Rs. 2,000 and is not liable to taxation at the source, and where an assessee's total income by the addition of other income to his salary is over Rs. 2,000. This suggestion made on section 18 (5) refers only to sections 8-11.

SECTION 20

36. We are unable to recommend the suggestion of the Madras Committee that an assessee should in all cases be supplied free with a copy of the Collector's order of assessment along with the notice of demand. We agree, however, that an assessee should be supplied by the Collector with a copy of the order of assessment free of charge if he applies for it.

The majority of the members agree to the recommendation of the Madras Committee that where there is a change in the proprietorship of a business or profession, it should be made clear in the Act that the liability for the tax based on the income of the preceding year attaches to the business or profession itself and that the new owners are liable for the tax, although they were not owners for the whole of the time during which the profits on which the assessment is made were earned. This will also apply to cases where a company has been bought up by another company.

SECTION 21.

37. We are not in favour of the Madras Committee's proposal that an appeal should be allowed in cases where an assessee has failed to make a return or to comply with a notice requiring him to produce his accounts unless the appellate authority finds that the failure is knowing or wilful. We are, however, in favour of the proposal of the Bengal Committee that as it is very difficult to determine that a person has "knowingly and wilfully" failed to make a return under section 17 or to comply with the terms of a notice under section 18, section 21 should be amended so that any person who has after due notice and reasonable opportunity failed to make a return or to comply with the terms of a notice under section 18 should not be able to petition or appeal against an order of assessment or adjustment. Where, however, an assessment has in such a case been made under section 18 (4) and an assessee shows within one month from the date of service on him of a notice of demand to the satisfaction of the Collector that his omission to make a return or to comply with the terms of a notice under section 18 is due to want of due notice or lack of reasonable opportunity, it should be open to the Collector to make a fresh assessment without the assessee having to file an appeal to the appellate authority against the original assessment. Diwan Tek Chand and Rai Bahadur Ganga Ram would prefer the Madras Committee's proposal.

SECTION 22.

38. As regards the view of the Madras Committee that the words "and fixing such time for payment as he thinks fit" in this section are inconsistent with the provisions of section 35, we are of opinion that section 22 only gives the Commissioner power, when he passes his final order on the appeal, to fix a date for payment, and it gives the Commissioner no power to pass an order prior to the final order on the petition, requiring that the collection of the tax assessed shall be postponed, the Collector retaining his power under section 35 at his discretion to postpone collection pending disposal of an appeal.

We are not in favour of the suggestion mentioned by the Madras Committee that appeals should be heard by non-official persons appointed by the local Government.

SECTION 28.

39. We are not in favour of the proposal put forward by the Bengal Committee that, if a petitioner so desires it, his petition should be heard and disposed of by the Chief Revenue Authority sitting with two non-official assessors whose functions would be advisory only. We do not think it would be possible to get a panel of non-official assessors willing to undertake this duty in most of the districts, and we do not consider it advisable that the Chief Revenue Authority should always deal with revision cases at the headquarters of the province. The non-official members from Bengal dissent.

SECTION 34.

40. We recommend that this section should be amended in order to make it clear that the penalty imposed under it is a penalty and is not "income-tax".

SECTION 35.

41. We agree that this section should be amended by altering the words "at any time in the year next following" to "at any time up to the end of the year next following".

Seven of the members of the Committee are in favour of extending the period under this section to three years, provided that in making assessments or re-assessments care is taken not to call for the production of account books unnecessarily and to detain them unduly. Six members of the Committee would retain the period of one year.

We agree that the last words of the section "and all the provisions of this Act shall apply accordingly" should be amended in order to make it clear that all that is necessary is that the Collector should commence the proceedings for the assessment or re-assessment within the period prescribed by this section.

SECTION 36.

42. We agree with the proposal put forward by several provincial committees that this section should be amended so as to allow the Collector to rectify mistakes of his own motion.

We agree that it should be made clear, either by re-wording the section itself or by executive instructions, that the word "mistake" in this section refers only to a mistake which is patent from the facts or documents which were before the assessing officer when he passed the original assessment order and that it is not intended either to confer a general power of review or to authorise any assessee to introduce new facts. The period under this section should be the same as in section 25.

We recommend that the word "may" in the first line of the section should be replaced by the word "shall".

SECTION 38.

43. We agree with the proposal of the Bengal Committee that provision should be made in this section to enable a Collector to require information to be given regarding specific payments where there is reason to believe that such payments could become liable to income-tax in the hands of the recipients. Mr. Manmohandas Ramji dissents on the ground that the Bombay Committee are opposed to any attempts to obtain information regarding the income of any assessee from any other party.

SECTION 33.

44. We are unable to propose, as recommended by the Bombay Committee, any suitable definition of the words "business connexion" and "agent". We are, however, of opinion that special efforts should be made to make the working of this section uniform and to define the policy to be followed throughout the whole of India, either by rules or by executive instructions.

SECTION 35.

45. We do not see any reason to accept the Madras proposal for omission of the words "or if a time is not so mentioned, then on or before the first day of the second month following the date of the notice or order".

SECTION 36.

46. We agree with the proposal of the United Provinces Committee that sub-section (1) of this section should be divided into two sub-sections, one providing separately for levy of the penalty and one for realisation of the demand.

We do not think it is necessary to alter this section as proposed by the Madras Committee in order to make it possible to arrest a defaulter in the Madras City.

SECTION 37.

47. We consider that it should be made clear in the Act that where income-tax is deducted at the source it is the gross amount of the income before the income-tax is deducted that is to be taken into consideration in determining the rate at which an assessee shall be liable to income-tax on the rest of his income and also in determining his liability to super-tax.

Clause (5) of this section should be amended in order to make it clear that it is the amount of the profits to which a partner is entitled and not the profits which he has actually received which determines his personal liability to income-tax and his claim to a refund.

SECTION 66.

48. We consider that the period within which claims for refund under section 37 should be allowed should be extended to three years from the last day of the year to which the claim related, if a similar extension is made with regard to the period prescribed in sections 25 and 26.

SECTION 45.

49. We agree with the Bengal Committee that the question should be considered of whether a reference to section 28 is required in this section, as it is not clear whether such reference is necessary in order to bring section 177 of the Indian Penal Code into operation against a person who makes a false statement under section 28.

SECTION 51.

50. As regards a suggestion from the Madras Committee for an alteration regarding the officer empowered to sanction prosecutions we think that the power to sanction prosecutions should be conferred upon the appellate authority under the Act and not upon the Income-tax Collector.

SECTION 52.

51. We agree that this section should be amended in order to make penal the disclosure of any information contained in any income tax assessment record or any evidence or answer given by any person examined by revenue authorities.

We also think that it should be made clear in the Act that these documents or records cannot be called for by civil courts and suggest that the wording of the English Act should be followed, preventing public servants from disclosing information obtained in connexion with the assessment of incomes except to such persons only as act in the execution of the Act, and where it shall be necessary to disclose the same to them for the purposes of the Act, or in order to, or in the course of, a prosecution for perjury committed in connexion with proceedings under the Act.

We are further strongly of opinion that the practice in certain provinces of furnishing information to local authorities, who impose a tax on "circumstances and property" or a local income-tax of the details of assessments made by the income-tax authorities must be stopped.

We do not accept the proposal of the Madras Committee that for the words "Local Government" the words "District Officer or Magistrate or an officer of his status" should be substituted in the proviso, as section 4d empowers the Local Government to delegate its powers to the head of the Income-tax Department.

SECTION 56.

52. The Legislative Department might consider the objection raised by the Madras Committee to the words "by the delivery or tender to him" in his section. That Committee recommends that the section should be amended in order to make it clear that a notice may be served in the manner prescribed in the Code of Civil Procedure for the service of summons.

SECTION 57.

53. We agree to the proposal of the United Provinces Committee that this section should be so worded as to make it clear that the reference to the Government of India under this section is optional and not compulsory, that is, where the provinces concerned agree as to what is to be considered the principal place of business, no reference need be made to the Government of India.

SECTION 61.

54. We are of opinion that a reference to the High Court should be made only on a question of law and not on a question of fact. Mr. Manmohandas Ramji dissents. We agree to the proposal that this section should be amended so that the Chief Revenue Authority should no longer have power to withhold a reference to the High Court on the ground that an application is frivolous, or that reference is unnecessary, but should be required to state a case to the High Court on the application of an assessee. Also that in order to provide against frivolous and unnecessary applications the section should contain a provision that every such application should be accompanied by a fee of Rs. 100. In order to safeguard the revenue the section must provide that the fact that a case has been stated to the High Court, shall not in any way stop the collection of the income-tax due from the assessee. The assessee must pay the tax, but if owing to the judgment of the High Court the amount of assessment is reduced the amount overpaid shall be refunded with such interest if any as the High Court may allow. Two members of the Committee would levy a fee of Rs. 20 and one member would charge no fee at all. The Bengal representatives and Mr. Birch are of opinion that there should not be an unrestricted right of appeal but that if the Chief Revenue Authority does not state a case on an application it should be open to the petitioner to require him to reconsider his decision sitting with two non-official assessors, the opinion of the majority to prevail.

We unanimously agree to the proposal of the Madras Committee that the section should be further amended in order to make it clear that the application for reference need not be made before the final order is passed by the Chief Revenue Authority but should be made within one month after the passing of the order. In order to secure the revenue such a reference should only be made after the assessment order has been passed.

We unanimously agree that no authority other than the Chief Revenue Authority should be required or allowed to state a case.

GENERAL.

54 (a). We do not consider that any alteration is required in the definition of "Magistrate" in section 2 (9) of the Act as suggested by the members of the Madras Committee.

55. We agree to the proposal made by several Provincial Committees that losses under one head of income should be charged against profits under another. Under the wording of section 14 it is the aggregate amount chargeable under each head that determines taxable income, so that where a person has carried on a trade or profession and also has an income from house property if he has incurred an actual loss in the trade, the figure adopted under that head in arriving at the aggregate amount of income chargeable to income-tax is nil and not a minus sum. The majority of the Committee 8 against 6 are opposed to the proposal made by the Bengal Committee that business losses should be carried forward for 8 years.

56. The majority of the Committee are opposed to the Bengal Committee's proposal that provision should be made in the Act for making persons who are liable to income-tax liable to submit a return to the Collector of Income-tax whether called upon to do so or not.

57. We do not accept the recommendation of the Bombay Committee that accountants who claim to have examined accounts of a taxpayer should be called upon to take a declaration on oath that the accounts are correct for income-tax purposes and that a penalty should be imposed where certified accounts are found to be incorrect from this point of view.

58. With reference to proposals of the Bombay Committee and the United Provinces Chamber of Commerce we consider that there should be no alteration in the present provision regarding the super-tax on companies; more particularly in view of the loss of income involved. Under the terms of our reference we are debarred from making any proposals involving a loss of revenue unless accompanied by proposals for recouping that loss.

59. Our opinion has been asked by the Government of India on certain difficulties experienced in the working of Rule 15 of the Devolution Rules which provides for the provinces obtaining a share in the growth of income-tax receipts in so far as that growth is due to an increase in the amount of income assessed. The difficulty is that income-tax on the profits of a Company is collected in the province in which the headquarters of the Company is situated and the province where the whole of the operations of the company are carried on, does not collect any income-tax from the Company. The non-official members recognise that there must be hardships in many cases but they are unable to lay down any general rule and leave it to the Government of India to decide where a case is such as to require any special action. The case of Tata's Iron and Steel Works was considered an exceptional one. The non-official members of the Committee (other than the Bombay representatives) think that in the particular case as the whole operations of the Company are conducted in Bihar and Orissa and as the Company itself has asked that the Income-tax assessed on it should be collected in Bihar and Orissa, the Government of India should reconsider their previous decision in the matter.

Where the assessment of a Company or firm or business is transferred from one province to another, subsequent to the year 1920-21, the Committee are unanimously of opinion that the amount of income assessed in provinces in 1920-21, for the purpose of this rule should be reduced in the case of the province from which the Company is transferred and a corresponding increase made in the assessed income of the province to which the business is transferred.

60. With reference to the suggestion of Mr. Muncherdas Ramji that provision should be made for the alleviation of the burden of double income-tax where the same income, or part of the same income, is taxed in more countries than one, it was explained that at a conference between representatives of the Home Government and the Dominions and of India an agreement was arrived at to the following effect:—

That in respect of income-tax both in the United Kingdom and in India there should be deducted from the appropriate rate of the United Kingdom income-tax (including super-tax) the whole of the rate of the Indian income-tax charged in respect of the same income, subject to the limitation that in no case should the maximum rate of relief given by the United Kingdom exceed one half of the rate of the United Kingdom income-tax (including super-tax) to which the individual taxpayer might be liable, and that any further relief necessary in order to confer on the taxpayer relief amounting in all to the lower of the two taxes (United Kingdom and Indian) should be given by India. That is to say, the proposal is that where income is liable to taxation both in the United Kingdom and in India, it should pay only at the highest rate leviable in either country. These proposals have been accepted by the Government of the United Kingdom and are embodied in section 27 of the Finance Act of 1920. Under that provision a person whose income is assessed both in the United Kingdom and in India is entitled to claim from the authorities of the United Kingdom a refund or rebate of the rate levied in India up to one half of the English rate. We recommend that the Indian Act should be amended in order to implement the bargain arrived at and to provide that where any further relief is to be given in order to secure that such a person shall not pay a rate higher than the highest rate in either country, such relief will be given by India subject to the limitation that the relief given in India shall not exceed half of the rate of income-tax and super-tax combined. At present the Indian rates of income-tax and super-tax combined are less than half of the rates in the United Kingdom, and therefore no loss will at the outset be incurred to Indian revenues from this arrangement. Loss will only be incurred when owing to any alteration in the rates, the Indian rates is more than half the English rate, and the loss would merely be the amount by which the Indian rate exceeds half the English rate.

61. The non-official members of the Committee desire to record their opinion that a matter of greater importance than the amendment of the Act is an increase in the number and efficiency of the staff, which should consist of officers of the highest training and integrity. They would emphasise that the income-tax department should include experts of high standing trained in accountancy whose remuneration should be such as to reflect the market value of their professional experience and attainments. Accountancy should be one of the foundations of training for the whole service. The scale of pay should be such as to attract the best material available and all post in the department including the highest should be open to any officer of proved experience and capacity.

62. We have recommended that all the rules under the Act should be made by the Government of India and that local Governments should have no power to frame any rule. We have further throughout our report recommended that numerous details regarding assessment and the interpretation of provisions of the Act can only be settled and made uniform by issue of the rules and instructions. It is therefore essential in our opinion that the Government of India should have at least the nucleus of a department with functions similar to those of the Board of Inland Revenue in England.

63. In conclusion the non-official members of the Committee desire to place on record their appreciation of the services rendered by Mr Sim and the other officers associated with him in preparing the materials for the consideration of the Committee and of the assistance rendered by them during the sittings of the Committee

NOTIFICATION.

Fort St. George, August 16, 1921.

The following notification of the Government of India is republished :—

RAILWAY DEPARTMENT.

RAILWAY BOARD.

Simla, the 18*th July* 1921.

No. 186-T.-19.—The following is published for general information :—

(Amendment in Chapter III, Part I, of the General Rules of 1908 for working open lines of railway.)

It has been brought to notice that it is possible for rule 79 (1) (a) of the General Rules for working open lines of railway to be interpreted as giving the Guard powers to move, set and lock points independently of the Station Master, thereby conflicting with General Rule 247 (3), for "the reason that under rule 247 the Station Master on duty or some working under his orders should have full control of points, whereas rule 79 lays down that the Guard, who is not one of the Station Master's Staff, is responsible for padlocking all necessary points". In view of this the Railway Board have been advised that rule 79 should be revised which they consider necessary.

2. In exercise, therefore, of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, the Railway Board sanction under section 47, sub-section (3), of the Indian Railways Act, 1890 (IX of 1890), the adoption by the administrations of all lines of railway in British India administered by the Government and for the time being used for the public carriage of passengers, animals and goods, of the amendment specified in the annexure hereto, to the General Rules of 1908 for working open lines of railway.

3. The Railway Board also desire that the said amendment may be brought to the notice of the administrations of the several railways not administered by the Government and that the Agents of those railways may be invited to submit a formal application for the adoption of the said amendment on their respective lines.

* * * * *

For the existing rule 79, *substitute* the following :—

79. When a ballast train with coolies is stabled at a station it must be protected in the following manner :—

(1) the Guard in charge of the train must satisfy himself that all necessary points connected with the siding on which the train is stabled, have been correctly set against the train by the station staff, and must then inform the Station Master in writing that this has been done. Then until the train is ready to start,

(a) if the station is not interlocked — the Station Master will secure with his own padlocks the points connected with the siding on which the train is stabled in the presence of the Guard and personally hand over the keys to the Guard who will give a receipt for them and keep them in his possession ; or

(b) if the station is interlocked — the Station Master will tie a red flag on the lever-handle working the points, in the presence of the Guard.

(2) When under clause 1 (2) a red flag has been affixed, the Station Master must take steps to ensure that the lever is not worked until he has removed the flag in the presence of the Guard.

(3) When the train is ready to leave the siding, the Guard will inform the Station Master in writing and the Station Master having received back the keys from the Guard and returned the receipt for the same will arrange for the correct setting of the points.

N.B.—Should the number of candidates who have applied to be examined at any one of the above centres fall short of *thirty*, the candidates that selected that centre must be prepared to proceed, at their own expense, to the nearest centre where the examination may be held. Timely notice will be given to the candidates concerned.

5. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the place of examination entered in his application, *which must invariably be the place where he is employed or ordinarily resides, or should it not be a centre, the place nearest to it where the examination is held*. A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination annulled.

6. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examination in any of the subjects mentioned, at any other place, if he is satisfied that not fewer than *thirty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 20th August. Ordinarily, however, only one place will be constituted a centre for each district.

5. The oral and practical examinations in such subjects as require them will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

N.B.—*To guard against disappointment in the case of such of the Oral and Practical examinations as may be held before the written examination, candidates are recommended to refer to Part I-B of the* Fort St. George Gazette, *from time to time.*

8. Candidates whose examinations, either written or oral and practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

7. Heads of institutions are requested to see, before the certificate at the foot of the application is signed by them, that their institution has been recognized by competent authority as fitted to impart instruction in the *Technical* subjects and for the grades in them brought up by their *pupils*.

N.B.—Heads of institutions recognized for *General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up for any of the Technical examinations.

8. All pupils coming up from the same institution must select the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no applications of any *private* candidates being enclosed with these applications.

9. Each candidate must, wherever the syllabus requires it, submit, before the 31st August, the necessary drawings, plans, surveys, field books, estimates, or other 'certified works.' Each of the drawings, etc., submitted must have entered on it the name of the candidate, the subject and grade of examination for which he appears and the centre at which he appears, and must be certified to be his own unaided work by the head of the institution or office to which he belongs, by an officer of the Public Works Department not below the rank of Supervisor, by a District Board Engineer, by the Engineer of the Corporation of Madras, or by an Engineer of any railway company.

Candidates are specially warned that no certified works will be valued by examiners unless the certificate of authorship is quite satisfactory and specifies clearly the period of time occupied in the execution of each work and unless the examiners are satisfied as to the identity and qualifications of the persons granting the certificates. Further, if any suspicion attaches to any certified works submitted by pupils from Technical schools, the Commissioner will be compelled to recommend to the authority concerned the withdrawal of the departmental privileges enjoyed by the schools. Private candidates, whose certified works are in any way suspected by the examiners will be liable to have their examination invalidated and also to be debarred from appearing for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit.

It must be particularly noted that the drawings, etc., of each candidate should be submitted in a separate roll for each subject and for each grade (i.e., the drawings, etc., for number of subjects should not be rolled up together), and that the drawings, etc., of a number of candidates should not be sent in one and the same roll. Also, on the outside of each roll for each subject, each candidate should enter the following particulars in ink :—

(1) Name of candidate,	(4) Grade, and
(2) Place of examination,	(5) Total number of drawings in each roll.
(3) Subject,	

* For Free-hand Outline Drawing (Elementary and Intermediate grade) Design (Elementary grade), Geometrical Drawing (Elementary and Intermediate grades) and Painting (Elementary grade).

As the application has to be kept in the office and as the drawings, etc., have to be forwarded to the examiners, the application itself should be sent in a *separate* cover and *not rolled up* with the drawings, etc.

A candidate who failed, or having applied, did not appear, at a previous examination, must submit fresh drawings, etc. The drawings, etc., submitted will on no account be returned.

10. Candidates must send in their applications made out in English on *printed forms so that they reach the Commissioner's office on or before the 31st August, after which date no application will be received.* Only one form of application should be used by each candidate, although he may bring up several subjects and come up for different grades.

NOTE.—Candidates who is desirous of being examined through the medium of a vernacular in any subject should specify in column 9 of his application the language (e.g., Tamil, Telugu) through the medium of which he wishes to be examined.

11. Candidates in the mofussil should obtain the required application forms from the treasury of the taluk in which they are resident or of the district to which they belong. Candidates in the Native States of Mysore, Hyderabad, Travancore and Cochin should obtain them from the Resident's Treasury. Candidates who are residents of Madras should apply for application forms at the office of the Commissioner for Government Examinations, Cathedral P.O., Madras, and not to the Colleges of Madras.

N.B.—No notice will be taken of any applications from candidates in the mofussil requesting to be supplied with application forms from this office.

12. The following is the scale of fees to be paid by candidates for admission to the examinations :—

	Elementary.	Intermediate.	Advanced.
	Rs.	Rs.	Rs.
For each subject	3	5	10

N.B.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

13. The prescribed fee must be paid in every case into a Government treasury or, if at Madras, into the Imperial Bank of India, and the receipt given by the Treasury Officer or the Imperial Bank of India attached to the application, which must in every case reach the Commissioner's office on or before the 31st August. *No payment until the fee is received in the Commissioner's office, who has not sent an exact or by Post Office orders. No application will be registered unless it reaches the Commissioner's office by the date prescribed.*

NOTE.—*At Madras, in the case of all pupils, the fee should be collected by the Headmaster and sent in a lump sum to the Imperial Bank of India at Madras together with two lists of the pupils, one of which will be returned by the Bank and the other signed and returned to the Headmaster. This latter list should be forwarded to this office along with the applications of the candidates. The necessary forms for this purpose will be supplied by this office to Headmasters on application.*

14. Each application should be sent direct to the undersigned, post paid, superscribed and addressed as follows, the receipt for the fee paid *being securely fastened to it*

☞ Candidates are warned that the application itself *should not be enclosed* with any drawings, plans, surveys, field books, estimates, or other 'executed works' that may be sent, but should be submitted in a separate cover.

[*Application for admission to the Government Technical Examinations.*]

To

The Secretary to the Commissioner for Government Examinations,
Cathedral P.O. (Madras).

N.B.—Candidates anxious to assure themselves that their applications have been received should enclose *an addressed post-card in their respective applications.* The post-card should bear the sender's address only and no other writing. Such post-cards will be returned to them in due course with the 'Received' stamp of the office impressed upon them.' No other form of acknowledgment except that required by the Postal rules regarding registered covers can possibly be given nor will any notice be taken of any letter from any candidate inquiring whether his application has been received. *Insufficiently stamped covers will be rejected.*

15. Candidates should write their names, their father's names and their house names, *distinctly* and *in full* in their applications and give their *castes in full* also; if 'Other Hindus', they should state in column 8 of their applications whether they are 'Non-Brahmans Caste Hindus' or 'Pyschamas.' Applications which are irregular or defective in any particular will not be taken notice of.

NOTE.—The occupation or profession of candidates, or the appointments held by them should invariably be stated—in full—in column 10 of their applications.

16. *The fee once paid, in no case whatsoever, be refunded, nor will it be reserved for a subsequent examination. Neither will any excess fee that may have been inadvertently paid be returned. Candidates are warned to study the notification carefully and satisfy themselves, before even tiling their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed, at their own expense, beyond the limits of the examination centre allotted by them, for the purpose of undergoing the Written or the Oral and Practical examinations.*

17. Candidates for the Intermediate or Advanced examinations whose names have already been published in the Gazette as having passed a particular stage or stages in subjects in which the examination is divided into stages, or as having passed the Intermediate (late Pcon classes) where the examination is of two grades—Intermediate and Advanced—must in their applications state the date and page of the Gazette in which their names appear and their number in the list of successful candidates.

18. The examinations in the subjects under 'Drawing, etc.', will be conducted in the order of time and subjects set forth in the following table. *Candidates will not be allowed to come up in more than one of the subjects bracketed together for the same time on the same day on the table below, or for more than one grade of examination in the same subject in the same year.*

THE GOKHALE PRIZE.

1. This prize will be awarded for the best essay or thesis written on any topic connected with Indian Economics by Graduates in Arts of the University of not more than five years' standing who have been born and are resident within the territorial limits of the University.

2. The value of the prize is at present Rs. 100. The prize will be awarded in 1923 and essays therefor should be submitted to the Registrar before the end of February 1923.

3. The essay or thesis submitted should have been prepared solely for the purpose of competing for the prize and should not have been published in any manner previous to submission. Each competitor for the prize must forward with his essay or thesis a declaration that the above conditions have been observed.

4. While competitors for the prize have unrestricted choice of subject within the limit of Indian Economics, the following suggestions (Section 6) on suitable topics and the methods of presentation are offered for the guidance.

5. The Economics of a particular industry in a particular locality.

(i) A candidate taking this subject should confine himself mainly to a locality so limited that he can become personally acquainted with the whole of it, though illustrations of particular points drawn from published reports relating to other localities may well be used. The candidate should investigate family budgets and working conditions of typical families and endeavour to throw light upon the recent history and prospects of the industry and of those engaged in it.

(ii) The economic conditions of a particular agricultural district, either with special reference to some agricultural problem of general importance (e.g., Fragmentation and Excessive Subdivision of Holdings) or with reference to some important local problem such as that of Hand-sales for Panchamas in the Tanjore Delta, or the Advantages and Disadvantages of Marumakkattayam on the West Coast.

(iii) The economic conditions and problems of some particular caste or defined body of workers in either an urban or rural area, the object aimed at being an investigation similar to that of Mr. Arthur Davies into Anglo-Indian families in Madras, or that of Dr. Harold Hane into Untouchables in the villages near Poona.

Competitors are not excluded from the choice of other subjects but should select only such as are of sufficiently manageable dimensions as to permit of the production of essays and theses of possible value.

Competitors are warned that essays and thesis which do not *either* contain new facts or new interpretations of previously known facts, *or* present such regroupings of facts and ideas as make clearer than before some point of economic interest will not be considered of merit sufficient to justify the prize.

6. All essays and thesis for University Prizes shall be forwarded to the Registrar by the prescribed date by registered post. No essay or thesis shall bear upon it the name of the competitor or anything whereby his identity can be ascertained by the persons to whom it is to be submitted for examination. Each essay or thesis for a University Prize shall be headed by a motto or a *nom-de-plume* selected by the competitor and shall be accompanied by a sealed cover bearing on the outside the competitor's motto or *nom de plume* and containing his name, designation and address and a signed declaration that the essay or thesis has been prepared solely for the purpose of competing for the prize and has not in any manner been previously published. Essays or thesis may be printed, type-written, lithographed or written (but not in the competitor's own hand).

DEPARTMENT OF AGRICULTURE, MADRAS.

THE COTTON CROP OF 1921-22—FIRST REPORT.

[On an average of the five years ending 1919-20 the area under cotton in the Madras Presidency has represented 11·2 per cent of the total area under cotton in India.]

The area sown with cotton up to the 1st August 1921 is estimated at 214,200 acres as against 91,200 acres on the corresponding date last year or an increase of 23 per cent.

The increase is most marked in the Northern and Western area, particularly in Kurnool, where the season is favourable, and the rainfall timely. "Mungari" sowings are progressing well on the red soils of Bellary district.

The south-west monsoon was somewhat late in the Coconadas tract and in Ganjam and Vizagapatam districts. As a result there was a slight decrease in the Coconadas area but in the Ganjam and Vizagapatam districts, though sowings were delayed, there was no fall in the area.

In the south, the decrease in Madura and Salem districts is due to the working of the Pest Act. The large increases in Tinnevelly and Coimbatore are due to perennial Bourbon and the old Cambodia crop from which the summer picking may have been taken in July. Details by districts are given below.

(Area in hundreds of *acres*, i.e., 00 being omitted.)

GINGELLY CROP OF 1920-21—FIRST REPORT.

[On an average of the five years ending 1919-20 the area under gingelly in the Madras Presidency has represented some 17·3 per cent of the total area under gingelly in British India.]

The area sown with gingelly up to 1st August 1921 is estimated at 348,600 acres which is about 12 per cent more than the estimate of 310,000 acres made on the corresponding date last year.

The season has been very favourable in the Central districts where, owing to timely rains, the area sown has increased by more than 120 per cent over last year. In the Ceded districts, also the season has been more favourable than last year. The decrease in the Circars is due to the late arrival of the south-west monsoon in the end of June. That the decrease is not more marked is due to the high price of oil which induced ryots to sow in anticipation of rains. The outturn on such lands will be poor. Details by districts are given below:—

SUGARCANE CROP OF 1921-22—FIRST REPORT.

[On an average of the five years ending 1919-20 the area under sugarcane in the Madras Presidency has represented some 4·6 per cent of the total area under sugarcane in British India.]

The area planted with sugarcane up to 1st August 1921 is estimated at 90,600 acres which is about 13 per cent above the estimate of 79,900 acres made on the corresponding date last year. The increase occurs in all tracts except the Circars, but is greatest in the central districts and the south. It is due to the high price of jaggery at the planting season and to the generally favourable season.

The decrease in Vizagapatam is due to the unfavourable season. The outturn of the crop in this and the other districts in the circars will be affected by the severe drought in April and May.

Details by districts are given below.

Report of the Select Committee on the Madras City Tenants' Protection Bill, with the Bill as amended by the Committee	1412
Supplement— Madras Act No. V of 1920.—Tamil.	

Report of Select Committee, etc., to be presented to the Legislative Council of the Governor of Madras.

To

THE LEGISLATIVE COUNCIL

OF THE GOVERNOR OF MADRAS.

We, the undersigned members of the Select Committee appointed to consider 'The Madras City Tenants' Protection Bill' (No. 6 of 1921), have the honour to submit the following report.

2. We met on Monday, the 8th August 1921, and all the members except Mr. S. Srinivasa Ayyangar were present.

3. The Bill was published in the *Fort St. George Gazette* in English and in the Tamil, Telugu and Hindustani languages on the dates mentioned below :—

English	25th July 1921.
Tamil	2nd August 1921.
Telugu	2nd August 1921.
Hindustani	9th August 1921.

4. No representations were received and no witnesses presented themselves for examination.

5. We came to the conclusion that the provision for payment of compensation on ejectment is not likely to give reasonable relief to the large number of the poorer classes of tenants, who, though occupying the same site for a considerable number of

years, were only able to put up small huts or structures and resolved that to afford reasonable protection to such classes of tenants, they should have an option of purchasing the land in which they have been living for a considerable time, on payment of the market price to the landlord. With this view, we have introduced a new clause numbered as clause 9. This relief, we consider, should be given to tenants against whom suits or proceedings in ejectment have already been taken including those in which decrees or orders for ejectment have been passed but not executed. The sections have been renumbered and the preamble altered to cover the additional relief provided for by the new section.

6. There was a proposal that proceedings in the Small Cause Court should be tried in the same way as original suits in ordinary courts are tried under the provisions of the Code of Civil Procedure and the orders of the Small Cause Court should be subject to appeal. This was negatived by a majority of the committee.

7. We consider that the amendment suggested to the Bill is material and the Bill should be republished.

NOTE.

I consider that the summary procedure prevailing in the Presidency Small Cause Court is unsuited for the determination of compensation either for superstructure or land; and like the Land Acquisition Act which provides for the provisions of the Civil Procedure Code being applicable for determination of compensation payable under that Act, the present Act should contain a similar provision. Subject to this note I approve of the report.

O. THANIKACHELLA CHETTY.

BILL No. 6 of 1921.

A

BILL

ENTITLED

"*The Madras City Tenants' Protection Bill*, 1921".

(As amended by the Select Committee.)

WHEREAS it is necessary to give protection to tenants who in many parts of the City of Madras have constructed buildings on others' lands in the hope that they would not be evicted so long as they pay a fair rent for the land; and whereas the sanction of the Governor-General has been obtained under section 80-A (3) of the Government of India Act; It is hereby enacted as follows:—

1. (1) This Act may be called the Madras City Tenants' Protection Act, 1921;

(2) it extends to the City of Madras; and

(3) it shall come into force at once.

2. In this Act unless there is anything repugnant in the subject or context—

(1) 'Building' includes a house, out-house, stable, latrine, shed, hut, well and any other such structure, whether of masonry, bricks, wood, mud, metal or any other material whatsoever.

(2) 'Landlord' means

any person owning any land, and includes every person entitled to collect the rent of the whole or any portion of the land, whether on his own account or on behalf of or for the benefit of any other person, or by virtue of any transfer from the owner or his predecessor in title or of any order of a competent court or of any provision of law.

(3) 'Tenant' means

any person liable to pay rent on land and includes every other person deriving title from him.

3. Every tenant shall on ejectment be entitled to be paid as compensation the value of any building, which may have been erected by him, by any of his predecessors in interest or by any person not in occupation at the time of the ejectment who derived title from either of them and for which compensation has not already been paid.

4. (1) In a suit for ejectment against a tenant in which the landlord succeeds, the court shall ascertain the amount of compensation payable under section 3 and the decree in the suit shall declare the amount so found due and direct that, on payment by the landlord into court within three months from the date of the decree, of the amount so found due, the tenant shall put the landlord into possession of the land with the building thereon.

(2) In an application under section 41 of the Presidency Small Cause Courts Act, 1882, in which the landlord succeeds, the court shall ascertain the amount of compensation payable under section 3 and shall pass an *interim* order declaring the amount so found due and stating that, on payment by the landlord into court within three months of the date of the said *interim* order of the amount so found due, the landlord shall be entitled to the order contemplated by section 43 of the Presidency Small Cause Courts Act, 1882

(3) If in such suit or application the court finds any sum of money due by the tenant to the landlord for rent or otherwise in respect of the tenancy, the court shall set off such sum against the sum found due under sub-section (1) or sub-section (2), as the case may be, and shall pass a decree or *interim* order declaring as the amount payable to the tenant on ejectment the amount, if any, remaining due to him after such set-off.

(4) If the amount found due is not paid into court within three months from the date of the decree under sub-section (1) or of the *interim* order under sub-section (2), or if no application is made under section 6 the suit or application, as the case may be, shall stand dismissed, and the landlord shall not be entitled to institute a fresh suit for ejectment, or present a fresh application for recovery of possession, for a period of five years from the date of such dismissal.

5. (1) The compensation awardable under section 4 shall be the value of the building on the date of the decree or *interim* order, as the case may be.

(2) In determining such value, the court may take into consideration the estimated cost of erecting a similar building, the amount to be allowed for depreciation and the amount spent on repairs.

(3) If, on account of accident or other cause for which the landlord is not responsible, the building, for which compensation has been adjudged under section 4, is destroyed or has deteriorated in value between the date of the decree or *interim* order and the date of ejectment, the court may, on application by the landlord, pass an order directing that he be placed in possession without paying any compensation, or on payment of the amount determined on a revaluation of the building as the case may be.

6. (1) If, after a decree or *interim* order is passed under section 4, the landlord is unable or unwilling to pay the compensation ordered, he shall, within three months from the date of the decree or *interim* order, be entitled to apply to the court to fix a reasonable rent for the occupation of the land by the tenant and thereupon the court shall by its order fix such rent as it deems reasonable:

Provided that the rent previously payable for the land shall not be enhanced by more than 4 annas in the rupee.

(2) On the passing of an order under sub-section (1) the decree or *interim* order passed under section 4 shall be deemed to have been vacated.

7. Any landlord may apply by a petition to the court having jurisdiction to entertain a suit for ejectment or to the Presidency Small Cause Court to fix a reasonable rent for the occupation of the land by the tenant and thereupon the court shall by its order fix such rent as it deems reasonable:

Provided that the rent previously payable for the land shall not be enhanced by more than 4 annas in the rupee.

8. An order passed by a court under section 6 or section 7 shall have effect as a decree in a suit and the rent as fixed shall not, except by a contract in writing registered, be revised for a period of five years nor shall the tenant be liable to be evicted during that period.

[New.]

9. Any tenant against whom a suit in ejectment has been instituted or proceeding under section 41 of the Presidency Small Cause Courts Act

taken, may within 15 days after the service on him of summons or if that period has expired before the coming into force of this Act within 15 days after the coming into force thereof, apply to the court for an order that the landlord shall be directed to sell the land for a price to be fixed by the court. The court shall fix the price in accordance with the provisions of section 23 (1) of the Land Acquisition Act, 1894, and shall order that on payment by the tenant of the price so fixed within three months from the date of the order, the landlord shall convey the land to the tenant.

On such payment being made, the court shall pass a final order directing the conveyance by the landlord of the land to the tenant. On such order being made the suit or proceeding shall stand dismissed, and any decree or order in ejectment that may have been passed therein but which has not been executed shall be vacated. In default of such payment the application shall stand dismissed.

[9] **10.** (1) Sections 4, 5, 6 and 8 shall apply to suits in ejectment and applications under section 41 of the Presidency Small Cause Courts Act, 1882, which are pending, or in which decrees for ejectment or orders under section 43 of the Presidency Small Cause Courts Act, 1882, have been passed, but have not been executed before the coming into force of this Act.

(2) In suits in which decrees for ejectment have been passed the amount of compensation due shall be ascertained in execution and a fresh decree passed in accordance with section 4.

(3) In cases in which orders passed under section 43 of the Presidency Small Cause Courts Act are pending execution at the commencement of this Act, the court shall recall such orders, ascertain the amount of compensation and pass an *interim* order under section 4.

[10] **11.** No suits in ejectment or applications under section 41 of the Presidency Small Cause Courts Act shall be instituted or presented against a tenant until the expiration of three months next after notice in writing has been given to him requiring him to surrender possession of

the land and building, and offering to pay compensation for the building and stating the amount thereof.

A copy of such notice shall at the same time be sent to the Commissioner of the Corporation of Madras.

[11] **12.** Nothing in this Act shall apply to tenancies created by writing registered containing specific stipulations as to the terms on which buildings are to be erected or the payment of compensation therefor.

[12] **13.** In its application to the City of Madras, the Transfer of Property Act, 1882, shall, to the extent necessary to give effect to the provisions of this Act, be deemed to have been repealed or modified.
